

Heidi Generative AI

We are trialling a Generative AI (Heidi) to help your clinical team with note-keeping. Our hope is that we will be able to improve the quality of our attention, and also our clinical notes!

Your GP / NP or Nurse should ask for verbal consent before using. If you have questions, please ask them, or see the [Heidi information leaflet](#). Please feel free to decline – it will not affect the quality of your care, however we are excited at the opportunity to spend less time on the computer, and more time with you! We are confident there are no privacy or data sovereignty issues. Please let us know how it goes. And feel free to ask for a print-out of the notes from your visit.

Please feel free to send us feedback at reception@tkhealth.co.nz or at tkhealth.co.nz
